

## Donating by eTransfer

In your online banking:

- Add Hillsdale Baptist Church as a recipient
- Email is the contact method - **etransfer@hillsdaleregina.ca**
- This email address is set up for Auto-Deposit, so no security question is required\*.

If the church does not already have your email and street address for receipting purposes, please enter your full name, street address and email address in the **Message field**.

***Note about “nicknames”:*** Some banking programs/ apps ask you to enter a nickname as part of your account set-up. When you send an eTransfer to the church, the Interac email that is generated may only show this nickname as the sender. The email will not contain any other identifying information. In order to for us to receipt your donation, we recommend that you either use your full name as a nickname, or enter your full name in the Message field.

\* Some online bank programs require that the security question field be filled in before you can continue. You can just enter anything, and after this step the program should confirm that a security question is not required.
